## President Griffith Starts Machinery to Put the Treaty Into Effect—Dublin Castle is Being Evacuated—DeValera Says That He Will Never Take Oath of Allegiance

(By The Associated Press)

DUBLIN, Jan. 11.—The summoning of the Southern Parliament to meet Saturday by Arthur Griffith, president of the Dail Eireann and his cabinet has started the machinery for putting the treaty into operation. Half a dozen huge vans backed in front of the chief secretary's office in Dublin Castle this afternoon and removed stacks of official documents and effects of the secretariat and police departments thus beginning the evacuation of the castle—the symbol to Irishmen for centuries of British control.

Eamonn DeValera informed the correspondents that he believed his party would ignore the Saturday meeting of the parliament. In response to an inquiry regarding his plans he said he intended to continue the fight for independence. He supposed elections would be held within six or nine months.

Such elections, added Mr. DeValera, like the signing of the treaty in London, would be held under British threat of renewal of warfare, and therefore he could not accept the verdict as the uncoerced will of the people.

There is a big line of cleavage," said Mr. DeValera, "between those standing for dependence and those for independence."

Never would he under any conditions taken the oath of allegiance contained in the treaty. Alluding to the Irish republican bonds he declared they would be redeemed by whatever government was eventually established and added that a meeting of the leaders of the Sinn Féin party would be held tomorrow to consider the general position.

An important development today was the issuance of a manifesto by the Irish labor party stating that labor would participate in the elections to secure representation in the new free state government. The method adopted in summoning those who are to ratify the treaty is said to indicate that the British desire to exert friction in the transfer of the authority in Ireland. Instead of acting directly, the British government acted through the Dail cabinet leaving the Dail to initiate execution of the treaty.

The Associated Press is officially informed that the heads of Dublin Castle will do their utmost to facilitate and expedite the provisional government's taking over of full authority. The new government will have no reservations of technical legality will be set aside in the transference to the Provisional Government of the Republic.

visional government with a view to expediting affairs and necessary proceedings will later be validated by an act of indemnity.

The public is deeply interested in the hurried removal of papers from Dublin Castle. It is generally surmised that one reason for this is the undesirability that the new government should have an opportunity to inspect the contents of documents having to do with searches and raids and other measures of coercion and that, therefore, all will be carried away before the provisional government begins to function.

Passage of the measure was advocated by W. L. Hall, representing the Union League of Chicago, who presented resolutions from the club endorsing the bill. Mr. Baker stated that of approximately seven million tons of paper produced annually in the United States about 2,100,000 tons was newsprint. An unlimited supply of paper is vitally necessary to newspapers, he declared, adding that publishers also realize the importance of fire protection in a newsprint magazine forest land. Mr. Hall urged that the national government

The St. Louis bank cashier who wrecked the bank by disappearing with more than \$700,000 of the institution's funds had been mixed up with illicit liquor sales.  
Have you noticed that in recent months have been connected with more rinks? Liquor, illicit and otherwise, has long had its direct relation to crime.  
The city is proposing to handle the garbage disposal work this year by contract. It is the hope that under this system a plan can be worked out which will give more satisfactory results than in the past. It is certain that for the satisfactory operation of this department the word "garbage" must be clearly defined so that there can be no mistake as to the kind of service that the property owner has a right to expect.  
It is assumed that in letting the work out thru contract the city will reserve the rights of supervision. At any rate the method contemplated looks toward increased efficiency in the department and that is a worth while goal.

part of Jacksonville business men to draw visitors from the surrounding territory by the force of bargain offerings. The merchants realize that in these days that people are on the watch for genuine price reductions, that they cannot be stampeded into buying and that prices and qualities must be relied upon.  
With these thoughts in mind and further realizing a somewhat unusual season, the merchants of the city have combined in this clearance sale and some excellent offerings will be found in the stores. Stocks are ample but those who visit the stores on the earlier days of the sale will of course have the best opportunity for selection.

Statistics recently issued by the state department of public instruction show that the salaries of teachers in Morgan county were increased during the period from 1919 to 1921 by 40.9 per cent. This reads like a very substantial advance, but the same tabulation shows a 66 per cent increase in McLean county. One county in southern Illinois had a still higher percentage of increase, but the salaries there were very much lower in the beginning.  
If the delegates to the constitutional convention present an adequate and satisfactory plan of tax revision to the people they will materially strengthen the chances of the adoption of a new constitution.  
There is very widespread dissatisfaction over the present system of taxation in this state, and with very good reason. The present system contains many inequalities and injustices and in addition places a premium on evasion.

The wonder is that, with the recurring cases of payroll robberies that the check system of payment is not adopted. Perhaps this frequent transfer of money by automobile thru the streets of Chicago is necessary, but the down state citizens cannot see it that way.  
Some of the oldest mines in the Springfield district have been shut down for lack of business. One of these mines had operated continuously for 15 years.  
It is conditions of this kind that make one wonder why the factions within the miners' union continue their strife. Certainly this is a time, with the

approaching negotiations for a new wage scale, that they need a united front from their own standpoint.  
Still later statements with reference to the Muscle Shoals project reveal that Henry Ford has a great vision of a wonderful development that he could bring about thru this project in the south. Since the car manufacturer has offered to handle the project in such a way that neither his heirs nor estate can profit, he should be relieved of the charge sometimes made of an effort to build up a great business at the expense of the government.  
If you lived in the Muscle Shoals territory wouldn't you favor the proposal to turn over this government plant to a man who has made such a distinct success in the business world?

Malone of the Illinois Tax commission made an address on the general subject of taxation, as did George A. Fox who is an officer of the state association. C. **A COMMUNICATION**  
To The Journal:—  
I can't help but say a word regarding "The Four Horsemen of the Apocalypse" now showing at one of our local theaters. I witnessed this picture Monday night, and cannot imagine how anyone could have had one bored moment. It is a thoroughly wonderful picture, both from the standpoint of acting and the adaptation of the splendid story.  
I willingly paid my 83c—and would have as willingly paid \$1.83. But on all sides of me I hear—"Oh, I suppose it is wonderful, but heavens, it ought to be—think of the price!" Why aren't we willing to pay for something that is worth while?  
I think the men who brought this picture to town are to be congratulated, and the public should attend, to show their appreciation of this effort to give them something that isn't an insult to their intelligence—even if they have to stay home from the movies all next week to make up for it.  
And besides showing your appreciation by attending, you are also giving yourself the greatest treat you've had this year, I'll wager.  
Sincerely,  
A SUBSCRIBER.

In view of the present methods of business, can a man be a consistent Christian and succeed in business?

You may use this letter to help other girls, as the letters in your book helped me."  
—ROSE WADSWORTH, 3018 Roseland Place, Baltimore, Md.  
That is the thought so often expressed in letters recommending Lydia E. Pinkham's Vegetable Compound. These women know what they have suffered, they describe their symptoms and state how they were finally made well.  
Lydia E. Pinkham's Vegetable Compound is a medicine made from medicinal roots and herbs, and without drugs, to relieve the sickness women so often have, which is indicated by backache, weak feelings, nervousness, and no ambition to get anything done or to go anywhere. It has helped many women. Why not try it?

LOST THRU STRIKE

(By The Associated Press)  
NEW YORK, Jan. 11.—Suits for sums totalling between three and four million dollars, representing wages lost by the 55,000 garment workers who have been on strike for two months will be filed against New York garment

manufacturers as a result of Supreme Court Justice Wagner's action today in enjoining the manufacturers from combining together to enforce a forty nine hour week and a piece work system.  
Benjamin Schlessinger, president of the International Ladies Garment Workers Union on whose application the injunction was granted announced that steps already were being taken to prepare the action.  
Justice Wagner's action representing the first in history of labor disputes that a great labor organization has invoked legal action to restrain employers from breaking a contract is considered one of the most important and far-reaching decisions ever handed in the interests of labor in the United States.

ECONOMIC LAWS  
FORCING DOWN  
RAILROAD RATES

President of B. & O. Railroad Tells Commission

(By The Associated Press)  
WASHINGTON, Jan. 11.—Railroad rates are being slowly but steadily forced downward by economic laws which govern their levels, Daniel Willard, president of the Baltimore & Ohio railroad, argued today before the interstate commerce commission when that body resumed its inquiry into the general level of transportation charges.

Mr. Willard appeared as the first of several railroad presidents who will sum up the case of the common carriers in defense of existing rate levels.

He was preceded by several statisticians.  
"What then may the public expect?" Mr. Willard said in reviewing the statistical case. Must it continue to pay existing rates and fares? Is no relief to be expected? To assume that such is the case would be in error. In the past American railroads have afforded the cheapest transportation service in the world. They will do so again. They are, in fact, doing that at this minute. They can and will participate in the downward movement of all prices.

"In my opinion to accelerate the downward movement artificially at this time would injure the roads and not benefit the public."

**Lower Operating Costs.**  
Lower cost of operations which must be attained before rates can be cut, Mr. Willard said, largely depend upon lower labor costs, or upon investments of large amounts of capital in betterments, and upon time for the consumption of high priced materials still in railroad inventories and their replenishment with cheaper products.

L. E. Watterling, appearing for Western roads, fixed the sum of \$273,713.00 as the amount by which carriers in that district had failed to earn a six percent return.

When the hearing opened today the United States Chamber of Commerce asked the commission to call Secretary of Commerce Hoover as general representative of commercial interests in the rate hearing and the commission so ordered. Mr. Hoover will appear later, the time not having been fixed.

Sessions were adjourned until Thursday when S. M. Felton, president of the Chicago Great Western will be heard. Following him will appear H. E. Byram, president of the Chicago, Milwaukee & St. Paul, while dates several weeks in advance have been set apart for shippers, trade organizations and state railroad commissions to present arguments and in favor of rate reductions.

DISCOVER PLOT  
TO FREE PRISONERS

(By The Associated Press)  
SPRINGFIELD, Ill., Jan. 11.—Discovery of a loaded revolver, an extra cartridge, two saws and a bottle of muriatic acid in sacks of flour and corn meal disclosed a plot to free some or all of the twenty prisoners in a section of the Sangamon county jail Sheriff Henry Mester reported tonight.  
James LaBourge of Rochester, Ill., who is said to have attempted to smuggle the weapons into the jail thru the aid of a trusty, was arrested while boarding an Illinois Central train shortly after discovery of the plot and was held as a confederate of Grover W. Hill, under indictment for stealing automobiles.

Twelve of twenty prisoners in the section where Hill is confined are federal prisoners. They include Carl Eades, also known as Carl Kuhlman, alleged automobile bandit who escaped from the jail December 3rd and was recaptured several days later.

The articles were found in the sacks by Willard Mester, a son of the sheriff, who is night jailer.

RUSSIAN DELEGATION  
ANNOUNCED

LONDON, Jan. 11.—A dispatch to the London Times from Rome dated Tuesday says the correspondence has been informed by Dr. Boglano Pico, who recently returned from Moscow, that the Russian delegation to the Genoa economic conference probably will consist of M. Chitcherlin, the soviet foreign minister, M. Litvinoff, chief of soviet legations abroad, and Leonardas Crassins, minister of trade and commerce.  
Dr. Pico said M. Chitcherlin would head the delegation unless Nikolai Lenin, the soviet premier, decided to go. The belief was expressed by Dr. Pico that the Bolsheviks in going to Genoa would be expressing a willingness to discuss and probably to recognize the liabilities of the czarist regime.

The correspondent says he gathers that the Bolsheviks will argue at Genoa that when Russia entered the war she was promised many concessions, notably possession of Constantinople, but that she definitely renounced these concessions at Brest-Litovsk thereby cancelling the obligations of the allies.

MILLER FUNERAL  
TO BE HELD FRIDAY

St. Paul, Minn., Jan. 11.—Funeral services will be held here Friday for Clarence Benjamin Miller, secretary of the Republican national committee who died here yesterday it was announced tonight. The services will be under the auspices of a local Masonic lodge at 11 a. m.

ARMY TRANSPORT IS  
NOW BELIEVED SAFE

(By The Associated Press)  
NEW YORK, Jan. 11.—Threatened by heavy northwest gales which weather bureau officials predicted would sweep the North Atlantic coast, the Army Transport Crook, making eleven knots under temporary repairs was striving tonight to reach the lee of the shore in a race against the impending danger. The vessel, bringing back 942 A. E. F. men from Germany, sprung a leak off the New Foundland banks in heavy weather, but a late radio said danger had passed and all was well.

At noon today the transports position was figured as about 400 miles from Sandy Hook and about 150 miles off the Grand Banks.

The naval communications office calculated, however, that the transport stood a good chance to reach the protection of the United States coast before the full force of possible gales crossed her path.

Anticipating encounter with hazardous weather in the Crook's weakened condition the Transport St. Michel, which was sent to her aid and recalled, put out again this evening.

The coast guard cutter Tampa left Boston to pick up the transport soon after news of her plight was received. The Steamship George Washington also was believed to be one of the liners on vicinity that could give assistance if needed.

SENATE FIGHT IN  
NEWBERRY CASE  
STILL IN DOUBT

(Continued from Page 1)  
nation when large sums of money are used in a campaign and election.

**May Re-Commit Whole Case?**

The possibility of a move by the Democrats to seek to recommit the whole case to the senate elections and privileges committee temporarily set aside during the day were talked of again after the close of the debate. No decision was reached as to whether such a motion should be made.

There were seven speeches in the course of the day, among them being one by Senator Underwood of Alabama; another by Senator Jones, Republican, of Washington, who announced he would vote against Mr. Newberry.

The other senators who spoke, all in opposition to the resolution declaring Mr. Newberry to be the qualified senator, were Norris, Republican, Nebraska, and Reed of Missouri, Hitchcock of Nebraska, Caraway of Arkansas and Heilin of Alabama.

Mr. Jones' speech was brief, but he declared that in determining to oppose Mr. Newberry he had not seen fit to mention by name the fact that if he voted otherwise his political life would be jeopardized. He asserted that the controversy could in no way be made a party question.

Mr. Jones said further he believed the voters preferred a man who was "wrong from conscientious grounds rather than a man who was right thru fear." He declared that if he was wrong in this case it was his ground that he did not believe that Mr. Newberry was entitled to a seat after he, or any one in his behalf, had expended more than \$200,000 in pressing his campaign for election.

WANTS FRISCO ROAD  
TO OBEY QUARANTINE

(By The Associated Press)  
FORT SMITH, Ark., Jan. 11.—A request that the surgeon-general of the United States order the St. Louis & San Francisco railroad to comply with the quarantine regulations of the Oklahoma state health officer was forwarded to Washington today by Dr. O. W. Garrison, state health officer, who said he was advised the railroad was not requiring passengers to show certificates of vaccination before crossing the Arkansas-Oklahoma state line.

The order of Oklahoma health officials resulted from the smallpox epidemic in eastern counties of that state.

Little Rock authorities tonight announced that no trains on the St. Louis & San Francisco would be allowed to stop within the city limits beginning at 11 A. M. Thursday.

LIMA COUNSEL REFUSES  
TO GET OUT

NEW ORLEANS, La., Jan. 11.—A condition similar to that prevailing in Guatemalan affairs in Washington, developed here today with the arrival of Don Senor Jose Lima, appointed by President Orellana, as counsel general Pedro Arenales, who holds the post by appointment of the deposed Herrera government refused to surrender the office to Lima. In Washington, Dr. Julio Blanche, minister to the United States has refused to surrender the post to Francisco Latour, Orellana appointee.

Benton McMillan, retiring American minister to Guatemala, arrived on the same ship with Lima.

PECK WILL NOT

Washington, Jan. 11.—Roger Peckinpaugh "positively will not be made manager of the Senators in 1922," Clark Griffith of the Washington club of the American League declared tonight.

Peckinpaugh, former New York Yankee shortstop became a member of the local team yesterday thru the three-cornered deal between Washington, Philadelphia and Boston.

PARIS IS CENTER  
OF INTEREST FOR  
SUPREME COUNCIL

Are Awaiting Action of the French Cabinet on Program

(By The Associated Press)  
CANNES, Jan. 11.—The situation in Paris, to which city the French premier is speeding, to meet the cabinet and parliament, has a greater interest tonight in supreme council circles than the work of the council itself, but it is intended that the council's work shall proceed as far as possible during M. Briand's absence.

The council will set tomorrow with M. Lloyd George presiding and M. Loucheur replacing Briand. In the meantime the German delegation is meeting the reparations commission, which has asked for an answer to its previous demands for information regarding Germany's announcement that the January installments would not be paid.

A sub-committee this afternoon adopted the general outline of the program for the Genoa conference.

Besides peace the other subjects include financial conditions that impede the revival of trade, foreign credits and the economic situation generally; the tariff and restrictions of trade that have been practiced since the armistice, transportation and the international regulations of bills of lading.

The Italian delegation explains that its negotiations with Mr. Lloyd George regarding the proposed Franco-British pact have been confined to the request that any agreement of this sort be understood as not changing the relations of either party with a third party. Italy recognizes that not having a frontier with Germany she could not logically become a party to an alliance designed to secure France on her eastern frontier.

JANITORS' OFFICIALS  
PLACED ON TRIAL

Chicago, Jan. 11.—Ten officials of the Chicago Flat and Janitors' Union were placed on trial here today on a charge of general conspiracy.

The indictment of the men which charges them with extortion, malicious mischief, boycott and threats of violence, resulted from alleged action by officials of the union during difficulties between janitors and owners of buildings.

ESCAPED GIRL IS CAPTURED

Chicago, Jan. 11.—After escaping from her home in Ironwood, Michigan, four months ago while in custody of Deputy Sheriff Day Baron of Adrian, Mich., Miss Mary Vargovick, alias Annie Dinkel, 16, an inmate of a girls' home at Adrian, was arrested by police here today. The girl was given permission to visit her home on September 17, 1921, and placed in Deputy Baron's custody. While he waited for her at her home in Ironwood the girl jumped out of a window and came to Chicago to live with an aunt. She will be returned to Adrian authorities.

WILL ALLOW THE  
PURCHASE OF TEXT BOOKS

Chicago, Jan. 11.—The Chicago Board of Education today voted to allow Superintendent of Schools Peter A. Mortenson to buy supplementary text books on requisition to the business manager. The action will result in 300,000 elementary school children and 10,000 high school pupils receiving between \$400,000 and \$435,000, it was announced. The board a few days ago nullified the superintendent's selection of textbooks, after the legal department had rendered an opinion that the books had "not been on file at Springfield for the proper length of time." This ruling does not apply to supplementary textbooks it was said.

TRADE WITH  
EUROPE INCREASED

Washington, Jan. 11.—American trade with European countries was greater by \$775,000,000 in 1921 than during the last previous year, 1920, according to an estimate based on eleven months statistics made public tonight by the commerce board. Exports to Europe during the past year were estimated by the department at \$2,380,000,000, as against \$1,600,000,000 in 1920, while imports for 1921 were placed at \$760,000,000 compared with \$865,000,000 in 1920.  
Great Britain, the department said, was this country's best customer in Europe, in fact, in the world, while Germany has risen to second place in Europe as a consumer of American goods.

SEARCHING FOR  
MISSING BOYS

Hart Madison, Iowa, Jan. 11.—Hundreds of citizens here are aiding the police in searching along the Mississippi river for traces of Harold Santa and Pearl Phillips, who disappeared Monday after leaving their homes to join a skating party on the river. Boys said they saw two skaters disappear beneath the ice and the police by dragging today brought to the surface a piece of cloth which is said to correspond with that of the coat worn by one of the missing boys.

League Takes Up Question  
of Liquor in  
Africa

(By The Associated Press)  
GENEVA, Jan. 11.—The question of the regulation of the liquor trade with Africa and the aftermath of the attempt of former Emperor Charles at the restoration of the Hapsburg dynasty in Hungary completed today's session of the league of nations council which consisted mostly of routine matters, except for a report and a decision for the neutralization of the Aland islands which was the foremost of the council's business today and occasioned the greatest satisfaction. The council's supporters pointed out that the settlement of the Aland question was a sign of world confidence in the council's authoritative influence.

Belgium has been requested by the council to establish at Brussels an international office to regulate the spirits traffic with Africa. The council in acknowledging a letter from Hungary in which it was contended that Sir James Eric Drummond, general secretary of the league of nations should have summoned the council of the league at the time former Emperor Charles made his attempt at the restoration of the monarchy, replied that the secretary had no authority so to act in such a case but that anyway the council did not desire to discuss the situation now as it would be useless.

The council voted to name a committee to study methods of conciliation between nations of the world as proposed by Norway and Sweden.

The poll tax included all male persons from 21 to 40 years of age.  
The bachelors' tax was imposed on all males more than 21 years old who were not heads of families.

CHARGE WITH USING  
MAILS TO DEFRAUD

(By The Associated Press)  
CHICAGO, Jan. 11.—Charles C. Dodge was arrested today on a charge of using the mails to defraud by postoffice inspectors who allege Dodge operated a \$500,000 swindle among ginseng growers.

Dodge used five different names and carried on his business at a different time in Aurora, Ill.; Peoria, Ill., and elsewhere, the authorities alleged.  
According to the charge against him Dodge mailed letters to ginseng growers thruout the country advertising himself as a buyer for their crops. After receiving the herbs from the farmers, Dodge retailed the produce but did not make any payments to the producers, later abandoning his firm and starting a new company, according to the government investigators.

POLICEMEN MUST NOT  
MISTREAT PRISONERS

Chicago, Jan. 11.—Chicago policemen who swear at persons they arrest or who treat them with discourtesy without cause, will be reported to their commanding officers with requests that they be discharged. "I do not mean to discourage the making of arrests," Judge Newcomer said, "but arrest them decently and bring them into court in a gentlemanly manner."

MANY APPEAR IN  
BEHALF OF NEW  
FORESTRY BILL

(Continued from Page One.)

erican Paper & Pulp association emphasizes the necessity of preserving forests of the United States and the developing of new timber tracts.

The paper industry has been a leader in asking for a maintained forest policy for the nation, Mr. Sisson said.

"Our mills represent great investments. A paper mill cannot follow the forests as it is cut over as the new mills have done. Canada's paper industry is growing rapidly because of the wealth of raw material in its forests. America must not be permitted to face a future in which its supply would come from foreign lands."

Mr. Sisson declared that the paper industry did not use more than four percent of the annual timber cut of the United States, although more than 95 percent of the paper made in the United States is manufactured entirely or in part from wood. Support of legislation providing for the conservation of timber was given by the paper industry, he asserted, because of a resignation of its part to the general public welfare.

Mrs. Francis McKean has gone to Woodson where she will visit with her sister Mrs. Crain for a few days and then she will go to White Hall where she will visit with her sister Mrs. Rose.

How to Care  
for Your Eyes

Eyestrain is one of the most insidious evils of modern times. Hard usage, bright lights, nervous tension—all put too great a load upon the eyes.

The only safeguard is to wear the proper glasses as soon as you need them—possibly for a short time only.

Have Your Eyes Examined

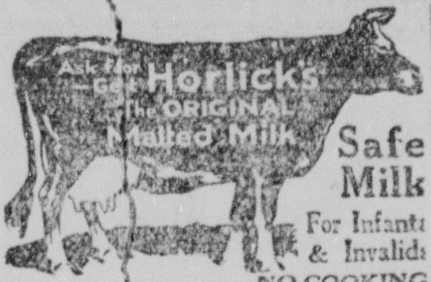

The only safe plan is to have your eyes examined before this strain weakens the delicate nerves and muscles that control vision.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c.

## "THE BAT" COMING NEXT WEDNESDAY

Grand Has Booked Big Theatrical Event for Early Date.

Wagenhals and Kemper, two of the most successful theatrical managers in the country, bring the greatest dramatic success of all years, "The Bat," by Mary Roberts Rinehart and Avery Hopwood, to the Grand Theatre on next Wednesday.

"The Bat," which is thrilling, mysterious and at the same time scorchingly funny, stands out sharp and clear above all dramatic plays offered during the past generation. At the present time, "The Bat," is in its second year at the Morosco Theatre, New York and in addition, another company, with a run of one year at Chicago, broke all records for popularity in that city. On its present triumphant tour, "The Bat," has played to absolute capacity in every city in which it has appeared.

Just what "The Bat" is in fact, wherever "The Bat," has been played, the audience and critics are earnestly requested not to disclose the secret of the story and they never do. Suffice to say, it is one thrill after another, interspersed with countless laughs.

Mary Roberts Rinehart and Avery Hopwood, co-authors of "The Bat" are two of the most successful playwrights in America today. In fact, the record of their collaborations fail to show a single failure. The first play, years ago, was "Seven Days." Great as was its success, however, "The Bat" has far surpassed it. Wagenhals and Kemper present "The Bat" in ideally the same manner as it is being given in New York and the cast is exceptionally strong. The company includes: Kate Bkancke, Helen Carew, Cecile Cummings, J. C. Bertin, Joseph Rayley, Richard Mansfield Courtney White, Wyrley Birch, Roy LaRue and Sam Kuster.

## COURT GRANTS CHANGE OF VENUE

Charleston, W. Va., Jan. 11.—Charges of venue to Green Brier county was granted today in the cases of union officials and others indicted in connection with disorders in Boone and Logan counties last fall and it was announced in court that a move would be made to have trials under similar indictments in Logan county also transferred to the same court.

The motion made in intermediate court here was not opposed by county authorities. No action was taken in the Logan court today. The motion for a change of venue to Green Brier county was determined upon by counsel for the indicted men and was offered after an agreement had been reached with the prosecuting attorney. The cases will be heard at Lewisburg. No date was set for trial. The grand jury here which investigated the march across Boone county and the pitched battles with Logan county forces at Blair Mountain and Crooked Creek, brought 93 indictments.

## FORMER ALEXANDER MAN HOLDUP VICTIM

Al LaRue Shot By Bandits Who Held Up Store—Died Five Hours Later.

Mrs. G. W. LaRue of 654 South Diamond street, accompanied by her brother, Harry LaRue and wife, arrived from Kansas City over the Washburn this (Thursday) morning with the body of Al LaRue who was killed by holdup men in Kansas City Tuesday.

The LaRue brothers operated a grocery store and meat market in Kansas City. Tuesday morning just after the opening of the store, two negroes entered the place. The Messrs LaRue and a Mr. Schoof, who is employed by them as a butcher were in the place.

No resistance was offered but one of the robbers fired, the bullet striking Al LaRue in the abdomen. He was rushed to a hospital but died from the wound five hours later. After firing the shot the robbers made their escape and have not been captured. It is thought by the dead man's brother that a noise in the rooms above the store frightened the robbers causing them to leave before getting anything.

Harry LaRue had about \$150 in the store and his brother had about \$50 on his person when he was shot. The brothers, owing to the prevalence of holdups had not been opening the store as early as usual and it was after seven o'clock when the holdup was committed.

Decedent was born Nov. 3, 1857, near Alexander and his early life was spent there. The family went west many years ago to make their home, Mrs. LaRue returning here for residence some years ago. One sister and one brother survive.

The remains were taken to the Gilchrist Funeral Home. The time and place of the funeral will be announced later.

## "UNCLE TOM'S CABIN" COMING

The Grand will have on Monday next William H. Kibbles' mammoth production of the immortal American drama, "Uncle Tom's Cabin," the most correct and expressive scenic production of the late Harriet Beecher Stowe's everlasting legacy to posterity ever seen in America, and only version that has been accepted by the pulpit as a moral instructor.

No such amount of money as William H. Kibbles has spent on this play has ever before been expended on this neglected and much abused American drama. He has taken great pains in the selection of the cast and has engaged actors for their special fitness for their various parts, rather than for their ability to play some instrument in the band, which has been the rule with managers of like attractions. The company which Mr. Kibbles will bring to our city is very large, including negroes to add to the pictures and sing and dance in the levee and other scenes.

## WORKED CONFIDENCE GAME ON HOTEL.

E. A. Brennan of the Pacific hotel has been informed of the arrest of F. H. Riley at Quincy, charged with working a confidence game on Hotel Quincy. Riley is the man who swindled the Pacific Hotel out of \$75 recently. It is understood that hotels in other cities have been worked in the same way.

Riley's method has been to have some friend telegraph hotel asking that Riley's check be cashed if presented, and signing the name of some well known firm like that of the Royal Baking Powder Co. Under such conditions the request was usually complied with.

Mr. Brennan is ready to assist with the prosecution of Riley.

Mrs. Maud Rimby of Murrayville is a guest at the home of Mrs. C. R. Short of West North street.

## WHITE HALL PEOPLE TO MAKE LONG TRIP

H. H. Griswold and Sister, Miss Jessie, to Leave for Hawaiian Islands—Warehouse Sheds Being Dismantled.

White Hall, Jan. 11.—For the past two evenings social gatherings have been held at the home of H. H. Griswold on North Main street. Mr. Griswold and his sister, Miss Jessie, leave Saturday on their annual world journey, which will take them to the Hawaiian islands and to the Orient, Japan and China. A year ago they visited the battlefields of France and Belgium, returning by way of the British Isles. The year previous they visited Panama and South America.

The warehouse sheds at the plant of the Western Stoneware Co. are being torn down, and the lumber will be shipped to Monmouth. This once pride of White Hall as a stoneware industry is gradually passing away. The brick building remains, but it has been stripped of all equipment.

### SEEK TO LOCATE SHIRT MANUFACTURING PLANT

Representatives of Chicago Concern Spent Wednesday In the City—Labor Survey Will Be Made.

Representatives of a well known company engaged in the manufacture of men's shirts spent Wednesday in the city in consultation with the Chamber of Commerce directors relative to the location of a factory. A meeting of the directors was held at 10 and then there was a further conference at a luncheon served at the Pacific hotel at 12:45 o'clock. In the afternoon the visitors, accompanied by Secretary Welch of the Chamber of Commerce, inspected several possible factory locations.

The company has a factory at two Indiana cities and purposes to establish one at this time in an Illinois city where labor conditions are considered satisfactory. They came to Jacksonville because of personal acquaintance with Frank R. Elliott of the N. W. Harris Bank and Trust Co., of Chicago. Wherever a factory is located it will give employment to at least 400 persons, in the main women and girls, only 5 or 6 percent of the total force being men.

At the conferences yesterday it was fully understood that the first question to be settled is with reference to labor. Unless the company has assurance that 300 or 400 women and girls could be secured here for a factory they will not be interested in this location.

In order to get at the facts for settlement of this question a committee from the Chamber of Commerce directors was appointed by Vice President Merrigan to arrange for a canvass of the city to secure the information thru newspaper publicity. It is not accounted as at all certain that the necessary number of employees can be found here, and until the facts are available the Chamber of Commerce directors will take no further steps about meeting the other conditions which the company purposes. A ten day period has been allowed for the securing of the necessary information.

The visitors impressed the Jacksonville people with whom they came in contact as men of business experience and there is no doubt as to the financial standing of the company.

## COUNTY AGENT SPENDS VERY BUSY MONTH

Report Filed With Directors Shows Mr. Kendall Engaged on Many Sections.

Herewith is the monthly report of Geo. B. Kendall, County Agent, program for work for December: Junior Corn Show.

Developing a market for ear corn in Southern Illinois.

Developing a market for home-grown Soy Beans.

Developing a market for clover seed.

Conference of Landlords.

Conference of Tenants.

Conference of Joint Committees.

Conference of Melon Growers in Meredosia District.

Distribution of Farm Account Books.

Developing a Program of Work.

Junior Corn Show.

Seventy-nine boys and girls made ninety-one entries. Over \$60 were distributed as prizes. While there will quite likely be some heartaches amongst the little folks, we hope all who failed to win a prize may prove good losers and come again next year. We really wanted to have every exhibitor in for a free show Saturday, but the weather forecast was so unfavorable that we did not complete the arrangements.

O. J. Sommer of Pekin judged the entire exhibit and placed the

field corn according to the Utility score board. Other things being equal the corn that is smooth and disease-free will have the advantage when judged by this standard. After watching Mr. Sommer work, we are confident that he is not only conscientious but competent.

This show plainly revealed that a great deal of our corn is diseased and the growers do not know it. We hope to demonstrate in other ways that it is to your advantage to cultivate the utility type of ears from the corn grown on your place. A final decision must be based on a germination test.

The Farm Bureau was to no direct expense for this otherwise than what might be involved in the time devoted to the project by the advisers in advertising and directing the project. The cash expenses were met as follows:

Receipts.

County Appropriation . . . \$75.00

Farmers State Bank prize. . . 6.00

Farmers' Institute . . . . . 37.32

Expenses.

Premiums . . . . . 68.00

Judge . . . . . 21.67

Drayage . . . . . 3.50

Ribbons . . . . . 3.75

Signs . . . . . 4.25

Newspaper Ad . . . . . 1.00

Rental, heat, wiring . . . 16.25

\$118.42

As a final act we gave a box of candy and a ticket to a show on Saturday December 24th. Twenty

took in the show and 36 called for candy. The majority of those who could not come have since come for the candy.

Developing Market for Ear Corn in Southern Illinois.

Our plan for developing the market for ear corn in Southern Illinois, was to call a conference of the elevator managers and see what price would move this corn and how willing they were to load ear corn at their shipping points. The rainy weather was on that the date was set and only three put in their appearance but we have heard from several since.

We have circularized parties living in southern Illinois and some of them have responded to the invitation and the freedom with which they talked of the problems of production and marketing.

They have over 200 acres devoted to melon growing there and have not done anything in the way of co-operative marketing. Several are in favor of organizing a co-operative Melon Growers' association. We told them to think it over and if they wished such an organization, we would be very glad to assist them. This meeting was in a new territory and I think worth while.

Farm Account Books.

Our farmers have never been stampeded by farm account books. We had some left from last year from way of experiment, we offered them free as long as they lasted. They went like hot cakes. I think we ought to give every member who applies for a farm account book, one without cost. I do not believe that we can do too much towards encouraging and assisting members in putting farming on a business basis. We have recently had an example or two of men who have met the inquiries of the revenue officer most satisfactorily, when they produced their records for 1920 in a farm account book. I really think it is a project worth while to get 25 or 30 men in Morgan county to keep accurate accounts of their business in one 1920 in a farm account book. I really think it would be a great thing to have this done by men who are not always making a success of the farming game.

Developing a Program of Work.

We have done nothing along that line. I still believe that we ought to have a program of work committee, a representative gathering of township chairman and men from every school district, have a school of instruction, develop a word of mouth machine for telling what the national, state and county organizations have done and plan meetings in every part of the country on one night and get from them written statements as to what they think this farm bureau should do. I am personally sold on the method. Until then we can find plenty to do. I think we ought to have some community meetings with movies to bring out the whole family. I really think we ought

leaving. However, they did favor a joint meeting of landlords and tenants, county wide in character, at which their report could be made public and a general talk given by some Farm Management expert, showing what type of farming are the most profitable and why.

Melon Growers' Conference.

Our new township chairman, D. F. Beauchamp in township 16-13 and the banks in that locality, were asked to assist us in getting a representative gathering of melon growers at Meredosia on Dec. 27th. We haven't very much of a membership there. They surprised me by the way in which they responded to the invitation and the freedom with which they talked of the problems of production and marketing.

They have over 200 acres devoted to melon growing there and have not done anything in the way of co-operative marketing. Several are in favor of organizing a co-operative Melon Growers' association. to buy a movie portable machine and use the films that are now to be secured thru the I. A. A. Program for January.

DO YOU wish to know how thousands and thousands of women have gone thru motherhood without knowing some of the pains and discomforts incident to childbirth? Listen to this:

Motherhood creates almost a new state of being for a woman.

As a result, new nerves, those heretofore restful and quiescent, spring into activity, they cry out, they tingle, they burn in their unrest.

The network of nerves across the abdomen, the loins, the back and other parts now become super-sensitive. All these nerves are being called on to perform unusual duties.

These nerves must be pacified and comforted; must be put in condition for the crisis that is pending.

If these nerves are not soothed and quieted, they may set up aggravated nerve tension, increasing in severity from month to month, sometimes even culminating in a nervous paralysis of the back and limbs. This leaves the mother-to-be in a condition where she is unable, fully, to meet the test when the climax of maternity arrives.

WARNING: Avoid using plain oils, greases and substitutes—they act only on the skin and may cause harm without doing good.

**Policy Meets Approval**

At the very beginning our policy was to render a perfect service at the lowest possible cost.

After one year of my business career, I found the public had faith in my statements.

I have not entered the undertaking profession to see how quick I can become rich from your misfortunes, and with this purpose ever in mind I shall maintain the right prices regardless of others.

Judging from the position I have gained after one year, my policy of conducting my business meets with your approval. Without it I could not have met with success. I shall continue to protect my clients at all times from unjust charges.

**DR. RAWLINGS GIVES TIPS FOR SAFETY**

Springfield, Ill.—(By Associated Press.)—Five instructions for safety in the garage from carbon monoxide poisoning from exhaust gases have been drawn up by Dr. I. D. Rawlings, director of the State Department of Public Health. They are these:

1. Always open the garage door before starting the engine.

2. Do not allow the engine to run for any length of time in a closed garage.

3. Do not work the exhaust of a running automobile engine.

4. Special precautions as to ventilation are necessary when in garage pits.

5. When the exhaust is used for heating a closed car, the system must be free from leaks.

"Persons overcome by exhaust gases from automobiles and gasoline engines should be removed to fresh air and artificial respiration performed until a physician arrives," Dr. Rawlings added.

**BLUFFS HOUSEHOLD SCIENCE CLUB MEETS**

Interesting Session Held Tuesday Afternoon at Home of Mrs. E. T. Palmer—Other Bluffs News of Interest.

BLUFFS, Illinois, Jan. 11.—The Household Science Club held a meeting of unusual interest at the home of Mrs. E. T. Palmer Tuesday afternoon with twenty-one members and one visitor, Mrs. J. H. Stewart present. At the close of the meeting a social hour was spent and refreshments were served by the hostesses, Mesdames E. T. Palmer, Mrs. Fannie Lewis and Lois Knoppel.

The next regular meeting will be held at the home of Mrs. Henry Knoppel Tuesday, February 14th. Mr. H. Corbridge and wife expect to leave the last of the month for a new location, probably Chicago. Mr. Corbridge has been the popular baker here for several years and it is with regret that we must lose such estimable citizens from the town. When his country called to arms he leased his bakery and volunteered for service. Since his return business has not been satisfactory and he feels that a change of location will be for the better.

Brief funeral services were held over the remains of Mrs. Theodore White at the home of Mrs. W. J. Hartnady Monday afternoon at 3 o'clock p. m., the Rev. E. J. Rees officiating. The body was taken to Beardstown Tuesday morning via the Wabash where the funeral service was held at the M. E. church Tuesday afternoon and interment was made in the Beardstown cemetery. Arrangements were changed awaiting the arrival of a daughter, Mrs. Eleanor Thomas of Kearney, Neb.

Miss Minnie Allen of Jacksonville was a business visitor in town the first of the week.

WHITE HALL MAN IS  
PAINFULLY INJURED

Oscar Langley Sustains Broken  
Leg Tuesday Morning When  
Thrown from Wagon—Other  
White Hall News.

White Hall, Jan. 10.—Oscar Langley, a resident of Roodhouse and formerly of White Hall, received a broken leg about 8:30 this morning at the Bridgeport street crossing of the C. & A. He was driving a team of mules when one of the animals got a shoe caught in the crossing, throwing Langley from the wagon onto a telephone pole with the above result. The team was frightened at his fall and ran away, but did no damage. Langley was moved to the home of L. O. Goodrich for first aid, and was later moved to his home in Roodhouse by his brother, Albert Langley. He is 33 years of age, the eldest of this well known family of boys.

The monthly meeting of the Parent Teachers Association was held tonight at the high school, and there is evident interest in its activities by the large and representative attendance. The speaker was Clyde Stone, who reviewed the school situation in White Hall in a general way in view of the election next Saturday, when the proposition for the erection of a \$65,000 high school is to come to a vote. There is no laxity on the part of the proponents of the new school at this time, and the proposition will carry by a substantial majority. A violin solo by Miss Doris English, of the high school faculty, was one of the features of tonight's meeting.

The Anoma class of the First Baptist Sunday school held the

monthly social Monday evening in the church. Two new members were accepted. Refreshments were served.

It has been definitely given out that A. C. Everingham of Crawford county, will be the speaker at the annual meeting of the Greene County Farm Bureau on the 21st inst. Mr. Everingham spoke at the recent farmers' institute in Carrollton, and there has since been an insistent demand for his presence on this occasion that has been fruitful, according to Marcus McCollister, one of the local committee on arrangements. The sessions will be held in Princess theatre. Officers will be elected in the morning and Mr. Everingham will speak at the afternoon session. It is expected that the attendance will be large. Following agitation and negotiations covering a long period of years, there has been filed with the county clerk of Greene county at Carrollton, a petition for the creation of the Upper Apple Creek Drainage District, extending from the northeastern section of Greene county through the central to the Illinois river.

STORM COSTLY FOR  
TELEPHONE COMPANY

Certain matters in connection with the losses of the Illinois Telephone Co., as the result of the recent storm are worth special consideration:

In the Sunday Journal was a long article under big headlines regarding the loss to the Telephone Company caused by the ice storm, in which it was stated that there were some 4820 poles down and that the loss would approximate \$80,000. The last paragraph called attention to the fact that in the application of the Company to increase its rates it had stated that business was not on a paying basis and that the present damage causes the Company great concern.

I have no desire to be unfair to the Company. I am not wanting something for nothing. I want telephone service and I am willing to pay enough therefor to pay the necessary expenses and also to give the Company a fair return on the money it has invested. I do not want to pay more. I do not want an ice storm to stampede us into higher rates unless higher rates are necessary.

It seems to me, and I am not a telephone operator, that there are several things to take into account in determining the actual loss by the storm. Were those 4820 poles new poles, just installed or were they old poles in use for years? If they were old, how long had they been in use? Were the wires new or old and if old how long had they been in use? In other words was the actual loss \$80,000, the installation price of new poles and new wires? The above questions are merely suggestive.

Another thing: As I understand the Illinois Company has recently bought out the Bell, thus enabling a great many of us who heretofore had two phones to get along with one. It seemed to me that this meant a saving, both to me and to the telephone companies. I had one phone instead of two; the company had one line to maintain instead of two. If the Illinois Company, by buying the Bell, had two lines here, is it necessary for them to maintain the two from this on? Why not now combine and get rid of one line? The storm may have hastened this combination. It is fair, however, to the consumer to charge up all the poles, all the wires, all the loss, to this storm.

I see no reason at this time for an increase in rates. If I am wrong I will welcome being set right. I hope my views are those of the average citizen.

Our guarantee of satisfactory service is just a little more definite and just a little more liberal than others. Numerous instances such as replacing shoes worn over four months with new pairs free, prove that our guarantee has a practical value to our patrons.

We are endeavoring to constantly improve our service and with your continued patronage and kind suggestion hope to make this store a genuine service to this community.

Performance that sustains every promise of value should convince you of the genuine reductions on our merchandise during the January Clearance Sale. Visiting our store during this sale and taking advantage of the low prices is a mighty good proposition. Don't you think so? Louis L. Horen

S. W. NICHOLS WRITES  
FROM SAN ANTONIOSan Antonio, Texas.  
January 6th, 1922.

Dear Journal:

This city has a wonderfully unique character. Albert Friederich, proprietor of the "Buckhorn" a place where a man may get a drink of anything within the law, and I guess nothing outside of it, a lunch and loaf a while in one of the most remarkable places on the continent.

He is said to be very wealthy the he is not at all an old man and he is very pleasant and approachable. I am informed that he owns the entire block in which his place is located and as it is on Houston street it must be very valuable.

His father for years has been the collection of heads of animals with horns and of rattlesnake rattles. His place is good size, double with with a kind of frame or openwork thru the middle and walls and frame are covered with heads of every description and the place is absolutely unrivaled even by the Smithsonian Institute at Washington. He told me that he had 2,000 heads and 30,000 rattles. He has been 32 years making his collection and takes great pride in it. The heads come from India where he secured speci-

mens of musk deer, Axis, deer, goat, great antelope and mountain deer. From Switzerland he obtained the chamois and ibex; from China, sika and shambler deer; from Colorado, a large number of elk horns; from Canada he brought the Alaskan moose and from Norway the five fingered moose.

As a matter of course, Texas is well represented in long steer horns one pair measuring 8 feet, 8½ inches from tip to tip and another 7 feet, 8½ inches and a third 7 feet, 8 inches. A wonderful array of horns is from far away Africa whence come bull and cow buffalo, springbok, Lichenstein Hartbeest, Bish buck, water buck, Oribi, Clark's Gazelle, Gork's bok, Koker's Hartbeest, Brindle Gnu and others. From this far away land comes the largest pair of horns ever collected by any one. It is a steer head with horns seven feet, nine inches from tip to tip, over eleven feet along the curve of the horns with 21 inches circumference at the base. This trophy cost the collector \$2,500 and he has refused \$5,000 for it.

He also claims to have the smallest horn found anywhere, a specimen 10½ inches long with a circumference of 3½ inches at the base.

One of the most remarkable trophies he has is a seventy-eight pronged deer head secured in Texas. It is mounted on a shield forming a five pointed star on which is spelled the word, "Texas." Growing right from the head is a wonderful cluster of horns forming a unique bunch. At night these horns look like articles from fairyland as electric lights shine from the ends of them making a wonderful effect, for probably no one ever before saw a real shandier made from real deer horns.

For years, too, he has been collecting rattles until he claims to have 30,000 of them. Several thousand he has had arranged in wonderful figures. One is a complete base relief form of a deer about thirty inches; another is a spread eagle, natural size, while still another is an Indian's head in addition to several words, signs and other devices all formed from the things which were once appended to the rear anatomy of the rattlers. Suppose we allow five rattles on an average to the snake and each snake average five feet in length and we have thirty thousand feet of rattlesnakes represented, more than five and a half miles.

The place is called "Buckhorn" and I suppose in former times it was a place where drinks of almost any kind might be had but now I am satisfied the owner is a law-abiding citizen obeying the 18th amendment.

This place witnessed an execution of a colored boy today. He was about eighteen years of age and his crime was an alleged assault on a white woman. He maintained his innocence later tho it is said he made a confession at one time. The woman positively identified him as her assailant and he had two trials and at the last he was sentenced to hang. Great efforts were made to get the governor to commute the sentence to life imprisonment but after hearing all petitions the head of the state government said he deemed it wise to let the law take its course.

The number of morbidly curious striving to gain admission to the execution was sad or disgusting whichever one may see fit to call it but it did them no good for the sheriff admitted none but those duly permitted by law.

This place at least, I guess almost any part of the state, can equal our part of the land in sudden changes of weather tho at all times there is no offensive dampness or humidity but we do have all sorts of extremes. At times our medium cold weather clothes have been burdensome while today warm overcoats and wraps are very comfortable but I notice the weather man says this is likely to be the last cold snap for some time.

San Antonio is rich in the possession of old time bells and when they are rung they revive many memories of the long ago. Some have traveled long distances and have seen many vicissitudes.

In the San Fernando cathedral are four bells which ring out sweet melody from the towers of the sacred place. These bells were made in Spain and were brought to Mexico almost two hundred years ago and hung in their present place and since then have done constant duty. In olden days they were used regularly to summon the devout to worship while an approach of unfriendly Indians was duly foretold by them. Five called forth their music and they aided in spreading people the night the news of the armistice was received.

About 22 years ago one of them was found to be out of order and it had to be recast but the others remain in their primitive state. They are respectively christened San Antonio, St. John and Mary Gaudalope. There were originally five bells in the set but when the Church of the Immaculate Heart of Mary was erected one was removed to that place and is used there yet.

In the Alamo are two bells which are of great importance. One was taken from its place in a church tower during a fight with the Indians and found a resting place in the river where it remained for some time till it was discovered and rescued by John Twigg who gave it to his daughter, Mrs. Johnson, as a wedding present. The family moved to California and for a time the bell was put to the ignominious use of calling men to dinner.

Learning more of its history the owners went to some Catholic fathers to dispose of the bell but were informed it belonged in San Antonio and could only be used

there so a subscription was taken and the bell bought to be added to the list of relics at the Alamo.

Another bell in the Alamo is a battered relic, not sacred but possessing an interesting history. Captain Grayson of the steamboat "Yellowstone" used it as a ship bell when plying between New Orleans and Houston. During the war for the liberty of Texas the "Yellowstone" was converted into a battleship and the bell was used then and finally found a resting place in the bottom of the river. It was finally rescued and a nation-wide request was made for metal with which to recast the Liberty Bell at Philadelphia. A piece of this bell was sent but the metal failed to amalgamate with the original bell and the sacrifice was in vain.

A pretty legend is related regarding the bells at the mission of San Jose. A pious young Spanish nobleman named Don Angel de Leon wished to do something to show his devotion to his Creator and applying to the bishop was permitted to accompany a mission to the new world in this vicinity.

Here he devoted himself assiduously to the duties allotted him and won a name for great piety and devotion. He remained for sometime till at last he must sometime till at last he must to whom he was betrothed but just before he was to start the Apache Indians attacked the settlement and the young man was killed and his body buried near the walls of the San Jose mission.

When the sad news reached the young lady she could not be comforted. At last she heard that bells were to be cast for the San Jose mission and she insisted on being present when the work was being done. As she stood near the cauldron containing the molten metal she tore from her breast a crucifix her lover had given her and cast it into the metal and bade them take it and aid in giving tone and sanctity to the bells.

One evening as she was sitting in meditation thinking of her lover her face suddenly lighted and she cried, "It is the Angelus and Don Angel hears," and those were the last words she ever spoke on earth as her spirit departed at once.

In St. Mary's Episcopal church is a bell, which, while not so old as some mentioned has a great interest for San Antonio. It is cast from the metal of an old cannon found near the walls of the Alamo and buried deep in the ground. It bears on one side a Lone Star enclosing the word "Alamo" and the dates "1813, 1836 and 1876." The first date refers to an event during the war of the revolutionists against Spain under Santa Ana when a number of cannon were buried to keep them from falling into the hands of the enemy. The second refers to the fall of the Alamo which I have already mentioned and the third refers to the new birth of the bell when it was restored to a church tower where it belonged and regarding which the following beautiful words were written: "Ye must be born again, the Master said.

And spoke of man's new birth by water and the Spirit. I too have entered into the womb of mother earth. Have entered and been born again From works of death to words of life.

Thru Christ's eternal merit." I met Harry Platt on the street this afternoon and was pleased to see him looking much better than when he was in Jacksonville. He was carrying much and expressed himself much pleased with his new home and place of residence and remarked that he had a wife to look after him and he was in good shape.

Wednesday evening we attended prayer meeting at the tabernacle temporarily being used by the Travis Avenue M. E. church. Their pastor is a converted railroad man and a regular evangelist. He said he had conducted meetings in two places in Illinois. He proudly said, and doubtless truthfully, that they had the largest prayer meeting attendance of any M. E. church South. One brother said in the whole land but the preacher didn't endorse that. It was a great audience for Wednesday evening tho.

## FRENCH LABOR SPLIT INTO TWO FACTIONS

PARIS.—(By the A. P.)—The French Federation of Labor has been for some time practically split into two factions. One is led by Secretary Leon Jouhaux and the other by Communists who regard the present organization as too moderate and demand that it join the Third International of Moscow.

Now it is faced with the active opposition of extremists who have taken the name of the French Revolutionary Federation of Labor (La Confederation Generale du Travail Revolutionnaire.) The program of the revolutionary group is the same as that of the old organization in general. It demands the nationalization of public services, such as railroads, and mines and a better share to labor in the profits of industry, but it purposes to gain its ends by methods that are more energetic than those of the old federation.

It advocates general strikes carried to the bitter end, insurrectional movements, international agitation and an intense anti-militarist campaign.

The first act of the new organization is expected to be its formal admission to the Third International of Moscow.

## LIBERTY BONDS REGISTERED HIGH

(By The Associated Press)  
NEW YORK, Jan. 11.—Funded issues dominated today's operations on the stock exchange, transactions in bonds mainly at higher levels being relatively much in excess of dealings in the share list.

Liberty and Victory bonds were the outstanding features. Their extensive accumulation aggregated about sixty five per cent of the total turnover, which approximated \$27,500,000, par value.

All the domestic war issues, except the Liberty Third 4 1/2s registered highest prices for a year or more at extreme advances of 15 to 20 per cent.

The cash basis for corn was 12 cents better with No. 2 grades 4 1/2 to 4 3/4 under May.

Cash wheat premiums were firm and the cash oats basis unchanged.

Car lot receipts: Wheat, one; Corn, 384; Oats, 95.

**SALE OF TICKETS**  
The sale of tickets for the five pictures to be shown at the high school for the purchase of a moving picture outfit, will begin today. The price of single admission will be fifteen cents. The school authorities have made a flat rate of fifty cents for all five shows, and will sell season tickets for this price.

Tickets can be secured from the high school office. There will be no house to house canvass for this enterprise, but the student body will be thoroughly sold. However, anyone wishing to secure tickets can do so thru one of the students.

The high school hopes to be able to make enough on these pictures to purchase two of the moving picture machines. In order to do this five hundred dollars must be taken in.
